TASK

2

**Tomer (18)** Tomer doesn't talk much but when he takes on something, he does it to the end. He likes working with his hands, is very organized, and under his reserved smile hides a heart of gold. He's not always the first to start a conversation, but whoever talks to him immediately feels safe. He has a younger brother with special needs, which strengthens his sense of responsibility.

**Maya (18.5)** Maya is the heart of the group. She notices who's left out and makes sure they feel they belong. Sensitive, gentle, and always there for a hug or kind word. Pressure doesn't do her good, but when appreciated, she flourishes and gives her all. She likes to draw and write letters and always has tissues in her bag "in case someone cries."

**Eyal (18)** Eyal is a kind of social magnet, always at the center of things, funny and friendly, and simply knows how to connect people in any group. Sometimes he's a bit impulsive, but he has lots of enthusiasm and a great desire to make an impact. He most likes to activate people, talk and create new connections. He feels most meaningful when given challenging tasks. He was also a scout leader, and his scouts simply couldn't stop talking about him.

**Hadas (19)** Hadas is exactly the girl you want on the team – someone you can rely on with your eyes closed. She doesn't seek to be in front, but always does the work properly. She's an expert at listening without judging, and has an amazing ability to connect specifically with those who have it a bit harder. She went through a difficult period in childhood and managed to overcome it, which gives her special depth and real empathy.

**Roi (18)** Roi likes routine. He likes to know exactly what's going to happen and when, so he flourishes in places that require stability, order and especially responsibility. Emotional dramas confuse him a bit, but when tasks are clear and defined, he functions amazingly. He has infinite patience, and whoever is with him day-to-day discovers he becomes a genuine good friend.

**Adi (18)** When Adi enters a room, everyone immediately smiles. She's full of contagious energy and joy! She has a special talent for talking to anyone, from small children to adults, and always finds a way to connect. She's very sensitive, and sometimes has a bit of trouble in complex emotional situations, but with proper support she flourishes. She especially likes to surprise people with small, sweet gestures, and dreams of studying special education in the future.
