

The Mystery of the Menorah

Welcome to the Mystery of the Menorah!

So, how do you crack the code?

Throughout the game, you will need to solve six riddles in order to complete the mission and uncover the mystery.

This folder contains:

6 life-size masks of prominent figures from the history of Zionism.

6 cards, each featuring a brief description of one of the Zionist figures on one side, and a riddle on the other.

In the first stage, give each participant a life-size mask representing one of the Zionist figures, along with the card bearing that character's description.

When it's their turn, each participant puts on the mask, reads the description aloud to the group, and presents the riddle written on the back of the card.

To begin the game, scan the QR code at the bottom of this page and on the folder itself. The QR code will take you to an introductory video that presents The Mystery of the Menorah, the challenge that participants must solve.

The video introduces the same riddles found on the cards in this folder.

Each riddle includes clues designed to help participants.

The solution to each riddle is a number. Enter that number on the interactive website that accompanies the game.

Entering the correct number will unlock the next set of clues.

**So, what are you waiting for?
Go find the lost Menorah!
Good luck!**
